

Signs for the brick yard

Flat building and yard signs, sized for the shared miniature scene.

APPROX. 1:36 | US LETTER | PRINT AT ACTUAL SIZE / 100%

———— CUT - - - - - SCORE + FOLD

MAIN BUILDING SIGNS

2 inches wide

1 1/2 inches wide

SMALL YARD SIGNS

Overlap the two strips to make an X crossing sign.

ADD TO YOUR MODEL BUILDINGS

Cut around the rectangles. Glue signs onto walls, thin card or small posts.

For the railroad crossing, overlap the two strips into an X and glue to a post.

The main signs represent boards about 6 ft and 4 1/2 ft wide.

Small yard signs represent boards about 3 ft wide; loading is about 4 ft wide.

Page 2 includes signs that fold into small triangles and stand by themselves.

Check with a ruler

Period-style scenery. Wording, sizes and placement are creative choices.

Fold-over standing signs

Six two-sided signs | Face height: 1/2 in | Closed triangular bases

APPROX. 1:36 | US LETTER | PRINT AT ACTUAL SIZE / 100%

———— CUT - - - - - SCORE + FOLD

FOLD INTO A LITTLE TRIANGLE

1. Score the three blue dashed lines, then cut the outer rectangle.
 2. Fold the two sign faces outward and bring the base underneath.
 3. Glue the tab inside the opposite end to close the triangle.
- One face is upside down on the page so both sides read correctly when folded.

Assembled paper sign
